Lynkwell™

SUNY SCHENECTADY

Charging Destination Information:

Location: Schenectady, NY
Industry: Education
Charging Access: Mixed Use, Public & Private

Use Cases:
- Faculty and staff workplace charging
- Community charging opportunity for students/visitors

Infrastructure Hardware:
- Twenty-six 6.656 kW Level 2 Charging Ports

Overview & Goals:

Installing EV charging infrastructure supports the university's clean energy initiatives while expanding charging options for the campus and its surrounding communities.

To provide e-mobility campus-wide, chargers were deployed at various sites across the 57-acre campus including the main parking area, School of Music parking lot , and the Center for Science and Technology.

The project complements Schenectady's Smart City initiative.

Rebates & Incentives:
- Make Ready Incentive **$151,380**
- NYSERDA Incentive **$117,000**
