

SUNY Sullivan

Charging Destination Information:

Location: Loch Sheldrake, NY

Industry: Education

Charging Access: Public

Use Cases:

- Faculty and staff workplace charging
- Community charging opportunity for students/visitors

Infrastructure Hardware:

- Eight (8) 6.656 kW Level 2 Charging Ports

Overview & Goals:

This project is key component of the university's 2019 master plan that identified electric vehicle charging as a pivotal opportunity to expand its green infrastructure.

The new stations support SUNY Sullivan's commitment through the University Global Coalition to incorporate the United Nations Sustainable Development Goals into the university's teaching, research, operations and partnership initiatives.

Rebates & Incentives:

- Make Ready Incentive **\$48,510**

Thank you to our project partner

Driver Software Network:

ViaLynk
by Lynkwell

Electric Vehicles (EVs) are the future and fit with the sustainability mission of the college. Having the opportunity to charge vehicles on campus is just another way that we are moving to a greener future at SUNY Sullivan.

Jay Quaintance

President, SUNY Sullivan
