

Lynkwell Upgrade™

Elevate your EV charging experience with a complete EV charger & support upgrade, backed by our US-based team.

Fully BABA Compliant

- ✓ XLynk™ Charger
- ✓ Pedestal
- ✓ Cable Management

Upgrade to a Better Charging Experience

A great charging experience for both charging destinations and drivers is possible. Lynkwell Upgrade™ is a simple program for replacing aging and low-performing chargers with a complete EV charging solution. Upgrade more than just your chargers - upgrade your charging experience.

One Partner, One Complete EV Charging Solution.

If your current charging provider leaves you with broken stations, failed sessions, a bad driver experience, or missed revenue opportunities... you need more than just a charging provider, you need a charging partner.

Hardware

About Lynkwell

Lynkwell is a leading energy infrastructure development company focused on connecting renewable generation, battery storage, utilities, and microgrids with next-generation fueling technologies. Ranked as one of the fastest-growing private companies in the United States for the last three years, Lynkwell's leadership is bolstered by its top 10 nationwide cloud-based EV charging software platform which hosts dozens of EV charging networks and manages 10,000 assets. With a curated catalog of more than 500 products from leading global OEMs plus its own XLynk™ charger, Lynkwell's unique combination of full deployment solutions and energy integrations gives all clean energy stakeholders the power to thrive. Since 2016, the company has been instrumental in establishing private and public charging solutions and supporting infrastructure to empower America's growing clean energy revolution.

All USA-Based Team
