

Eastview Mall

Charging Destination Information:

Location: Victor, NY

Industry: Retail

Charging Access: Public

Use Cases:

- Visitor and community charging
- Workplace charging

Infrastructure Hardware:

- Twenty 6.656 kW Level 2 Charging Ports

Overview & Goals:

Eastview Mall continues to enhance its visitor experience by investing in modern amenities that attract both shoppers and merchants.

By integrating smart, energy-efficient EV charging, the mall advances its sustainability goals while improving accessibility for electric vehicle owners. These upgrades create a more convenient, eco-conscious retail experience, allowing visitors to seamlessly charge their vehicles while they shop.

Rebates & Incentives:

- Make Ready Incentive **\$120,561**.

Thank you to our project partners

Driver Software Network:

Providing our Eastview Guests with an excellent shopping experience is so important to us; enhancing our tenant mix and available amenities helps us do that.

Mike Kauffman

Eastview General Manager
