

Parkway Condominium

Ciminelli Real Estate Corporation

Charging Destination Information:

Location: Niagara Falls, NY

Industry: Multifamily

Charging Access: Public

Use Cases:

- Resident charging
- Tourism

Infrastructure Hardware:

- Four (4) 6.656 kW Level 2 Charging Ports

Overview & Goals:

The Parkway Condo Association installed Level 2 EV chargers to make EV adoption more accessible for residents. Since most EV drivers prefer to charge at home, on-site chargers are essential for Parkway residents to adopt electric vehicles.

With this project, the association also addressed a gap in charging infrastructure for tourists visiting Niagara Falls attractions, as the chargers often serve visitors to the Maid of the Mist, Niagara Falls Observation Tower, and Seneca Niagara Casino. By offering paid charging for visitors, the community is generating additional revenue while enhancing sustainability efforts.

Rebates & Incentives:

- Make Ready Incentive **\$21,578**

The Parkway Condominium has long been a premier residence in our community, providing many first-of-its-kind amenities in our area. It is consistent with that history that this installation at the Parkway continues the forward thinking that has put the Parkway in a league of its own.

Robert Restaino
Mayor of Niagara Falls
