

# Bard College

## Charging Destination Information:

**Location:** Annandale-on-Hudson, NY

**Industry:** Education

**Charging Access:** Public

### Use Cases:

- Community charging opportunity for students
- Faculty and staff workplace charging
- Visitor parking

### Infrastructure Hardware:

- Ten (10) 6.656 kW Level 2 Charging Ports

## Overview & Goals:

Bard College installed EV charging stations to reduce greenhouse gas emissions from commuting, support sustainable transportation, and promote shared mobility.

By offering convenient charging at key campus locations, Bard encourages electric vehicle adoption, aligns with its environmental values, and helps cover operational costs through user fees.

## Rebates & Incentives:

- Make Ready Incentive **\$144,000**

**Thank you to our project partner**

## Driver Software Network:

**“We were very pleased to work with Lynkwell to help electrify our transportation. We consider it our planetary and civic duty to make it easier for our community to charge up!”**

**Laurie Husted**
