

Lynkwell + EVSTAR = EVSE-360™

An Offering Unlike Any Other in the EV Charging Industry

EVSE-360™ is a software-driven solution backed by an A+ rated insurance company, offering comprehensive performance analytics and warranty protection that exceeds the limited scope of standard OEM warranties. Site hosts enjoy all the benefits associated with EV charging ownership while minimizing operational risks.

We've Got You Connected... with Lynkwell's ViaLynk™ Software Platform

- **ViaLynk™ Real-Time Analytics**
 - provides insights into station performance, utilization, revenue, and health through Lynkwell's dashboard, enabling site hosts to optimize pricing, prioritize maintenance, plan energy needs, drive more traffic during slow periods, and guide expansion decisions.
- **Seamless Hardware Interoperability**
 - lets site hosts deploy the best-fit chargers for every location, expand faster without costly disruptions, and manage it all through one unified platform.
- **Future-Ready Software**
 - built for constant evolution, with ongoing updates that deliver new capabilities to meet the changing needs of site hosts and drivers. Features like energy management, guest charging access, and configurable operating hours are just a few examples of how Lynkwell continuously enhances the platform to keep sites competitive, efficient, and ready for what's next.

+ Combined with EVSTAR's Warranty Program to create a unique offering

We've Got You Covered...with EVSE-360™

The EVSE-360™ Solution Subscription Includes:

- ✓ **Underwritten by A+ Insurance Provider** – The site host's investment remains protected regardless of what happens to the charger or the dynamics of the industry.
- ✓ **Full-Value Protection for the Entire Term** – 100% parts, labor, and shipping coverage for mechanical and electrical failures, power surges, and accidental handling damage.
- ✓ **Revenue Reimbursement** – If a claim isn't resolved within 72 hours of approval, site hosts receive a daily compensation for downtime.
- ✓ **Second-Chance Coverage** – Owners can retroactively enroll chargers sold within the past 18 months, making it easy to extend protection to past installations.
- ✓ **Unified Claims Process** – Regardless of the issue or cause, customers leverage a single point of contact for software, hardware, and support to streamline communication and minimize delays.
- ✓ **U.S. Based, Human Team** – Our 24/7 support, development, and technician teams are real people, working locally in the U.S. to provide hands-on support throughout your EV station's lifecycle.
- ✓ **Nationwide Coverage** – Includes Alaska, Hawaii and the District of Columbia.

EVSE-360™ supports a robust and growing catalogue of OEM hardware powered by an industry-leading software!

All USA-Based Team
