Why Lynkwell

Innovation Meets Experience

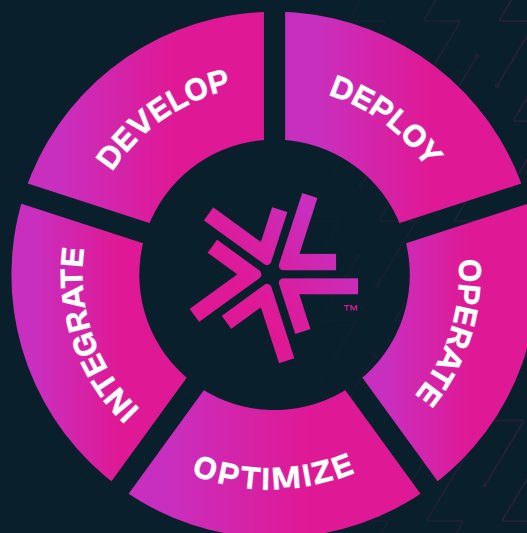

For almost ten years, Lynkwell has been providing purpose-built EV charging deployment solutions so that all stakeholders, including commercial properties, fleet operators, government agencies, utilities, distributors, installers, and drivers, do not just participate in the clean energy revolution, but thrive in it. Today, the company ranks as one of the top nine EV charging networks in the country, hosts dozens of EV charging networks, manages over 10,000 assets, and has been recognized as one of the fastest growing companies in the United States for the past 3 years.

Lynkwell's portfolio consists of software, hardware, service, and procurement solutions. Our cloud-based and hardware-agnostic software platform allows customers of all types to not just manage their stations, but optimize their operations through cutting-edge features, tailored offerings, and global

roaming partners. Our curated catalog of more than 500 vetted hardware products from leading global OEMs plus our own XLink™ charger ensures the ideal solution for each project. Our service team expertly navigates all aspects of the deployment process, from site design to post-installation maintenance. To ensure each project provides maximum value, Lynkwell provides interactive incentive search tools, live support from our internal team of experts, and an expansive list of awarded contracts and approved products to support every facet of the procurement process.

Lynkwell's mission is to focus our collective power to anticipate, aggregate, and activate evolutionary energy solutions that benefit us all. Let our team help you thrive in the energy revolution today.

**One Partner,
A Complete EV Charging
Solution**

Who We Serve

The Power to Prosper in Your Industry

Discover opportunities for EV charging that are relevant to your business needs.

Retail

Attract new business and increase engagement with loyal customers.

Hospitality

Accommodate guests in need of a place to recharge away from home.

Multifamily Homes

Provide an amenity to a growing number of potential and current tenants.

Healthcare

Cater to the charging needs of patients and loved ones.

Commercial

Attract talent and tenants with forward-thinking commercial infrastructure.

Automotive Dealers

Prepare for current and future EV models and attract new customers.

Convenience

Stand out from the rest with EV charging stations that attract business and increase dwell time.

Entertainment Venues

Capture more attention and attendees with much-needed EV charging options.

Parking

Future-proof your site and create a new revenue stream.

University & Campus

Welcome faculty and student drivers who are passionate about the future of EVs.

Workplaces

Boost employee convenience and promote sustainability.

Indigenous Communities

Empower sustainable growth and improve access.

End-To-End Expertise

Full Turnkey Services

Providing a full turnkey solution from start to finish - managed by a single team. Start with a goal and end with success.

Network in
USA**

According to
AFDC 2024

"Our company chose Lynkwell for the end-to-end process they execute. Other EV companies provided proposals for the hardware and left us to find an installer and for us to apply for the permits. Lynkwell is the one-stop solution I found that provides an outstanding experience and takes the guesswork out of executing the process. I highly recommend Lynkwell for any company looking to install EV stations on their property."

Glenn A. Hardman

XLynk™ Level 2 EV Charging Station

Designed for Uptime, Built for a Lifetime

XLynk™ was inspired by years of deployment experience to optimize function and maximize performance.

- The first and only commercial EV charger with a Lifetime Warranty
- EZ-Swap Faceplate™ allows for customization, upgrading, or maintenance in under 5 minutes
- Made in America with select globally sourced parts by Lynkwell's team in New York State

5X

The XLynk has demonstrated five times the number of charge cycles compared to the average EV charger.

The Ultimate Workhorse

- Ideal for fleet, public, and private EV charging
- Bundle with Lynkwell's industry-leading software for a comprehensive solution

EV Charger Protection Plan

Lynkwell offers comprehensive insurance-backed, industry-leading warranty coverage that protects against most types of physical damage, underwritten by an A-rated insurance company. We ensure EV charging stations remain operational and will be supported for years to come.

What's Included?

A five-year protection plan - the warranty eliminates any out-of-pocket expense during this term. This plan covers mechanical and electrical failures, normal wear-and-tear that limits functionality, accidental damage from handling, and damage from power surges.

We've Got You Covered

-  Your **OEM warranty does not cover** some common issues with your charger like accidental damage, power surge, or normal wear-and-tear that limits functionality.
-  Our protection plan covers a variety of damages so you **don't have to worry** about unexpected additional costs.
-  Customers contact us via the portal or call our toll-free number and **we take care of the rest.**

Benefits

- **Eliminates any out-of-pocket expenses** for the replacement device, repair, de-installation or re-installation.
- Peace of mind knowing your chargers are **always protected.**
- Removes the management of electricians and repairs. **Lynkwell handles all claims** and scheduling of services.

Superior Coverage

- ✓ 24/7 Support
- ✓ Remote Troubleshooting
- ✓ Mechanical & Electrical
- ✓ Accidental Damage
- ✓ Power Surges
- ✓ Parts & Labor
- ✓ Repair & Replacement
- ✓ Shipping Costs
- ✓ Response & Uptime

Over 100 industry-leading products fully covered across the USA.

Software for Site Hosts

Lynkwell's comprehensive software solution gives all customers maximum confidence in the reliability of their stations, whether managed directly or by the Lynkwell team.

>99.99%

Software uptime with industry-leading remote monitoring and diagnostic service included

>98%

Easily set pricing and create specific driver groups

100%

Easily access all reporting required for utility incentive programs

Why Choose Lynkwell?

Reach More Drivers

Our integrations with leading global roaming networks Hubs and ChargeHub maximize the number of vehicles that can charge at your stations.

Collect Revenue Easily

Seamless revenue collection via premier payment service integrations.

Stay Connected

Lynkwell's system is cellular-network agnostic, powered by a single SIM card that connects ports to the top tier 1 global networks.

Enjoy No Hidden Fees

Configuration, station connectivity, and data are included with your plan.

Ensure Adaptability

Our software is Open Charge Alliance certified and hardware-agnostic to be compatible with all OCPP-compliant chargers.

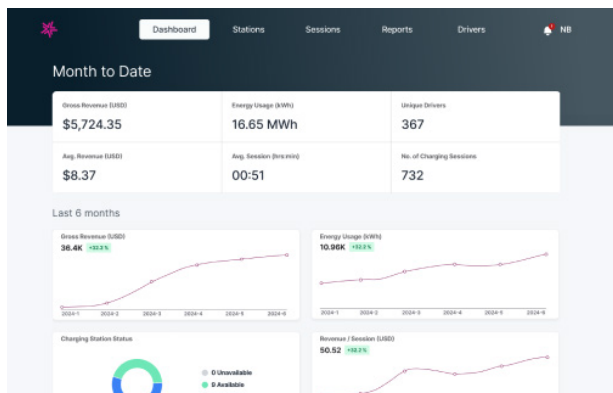

Trust Our Security

Lynkwell complies with rigorous security standards, including being fully compliant with the Center for Internet Security AWS Foundations Benchmark, to ensure your data is secure the moment drivers plug in.

ViaLynk™ Network

Thrive with Lynkwell's Established Network and Full Suite of Solutions

Drive the energy transformation with the ViaLynk™ Network that enhances efficiency and creates value for you and your customers.

ViaLynk™ Network Manager

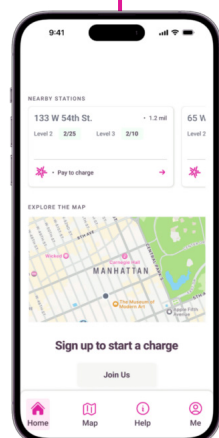

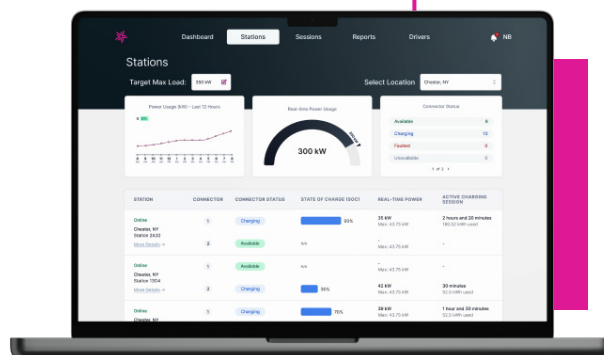

Establish a secure and exclusive network with administrative control over charging operations. Easily control pricing, energy management and more.

- Customize dashboard branding
- Effortlessly manage and monitor charging
- Set up timely alerts to stay informed

ViaLynk™ Site Host Manager

Enhance the charging experience for your business and drivers with a full suite of EV charging management tools.

- Tailor charging for specific driver groups
- Optimize with advanced analytics and reporting
- Streamline billing with simplified payment options

ViaLynk™ Driver App

Trusted by drivers nationwide, the ViaLynk app simplifies the charging experience. Drivers can find nearby stations while monitoring availability in real-time, make payments remotely, track energy usage and cost, and receive alerts about charging status.

- Contactless payment
- Transaction history
- Remote start

White Label Solution

Establish your brand in the EV charging market with the option to create your own network and brand your hardware and software solutions.

Service Advantage

Decades of Experience

Our service team is here to consult and facilitate your project every step of the way - from design and installation, to ongoing support and maintenance.

Consultation and Site Design

We work with you to plan your project based on your site needs. Coordinating with the utility and municipality, we utilize our experience to maximize your site design.

Installation

With thousands of successful installations under our belt, we provide expert project management, electrical and construction guidance to ensure your project is completed accurately and efficiently.

Service and Maintenance

We provide service, maintenance, and warranty coverage to ensure your stations are working so you don't have to.

Take Each Step With Certainty

Access a full suite of EV charging solutions from a reliable partner that understands your needs at every stage.

About Lynkwell

Lynkwell is a leading energy infrastructure development company focused on connecting renewable generation, battery storage, utilities, and microgrids with next-generation fueling technologies via its Lynkwell X-Change™ platform. Ranked as one of the fastest-growing private companies in the United States for the last three years, Lynkwell's leadership is bolstered by its top 10 nationwide cloud-based EV charging software platform which hosts dozens of EV charging networks and manages 10,000 assets. With a curated catalog of more than 500 products from leading global OEMs plus its own XLynk™ charger, Lynkwell's unique combination of full deployment solutions and energy integrations gives all clean energy stakeholders the power to thrive. Since 2016, the company has been instrumental in establishing private and public charging solutions and supporting infrastructure to empower America's growing clean energy revolution.

All USA-Based Team

Lynkwell's co-located hardware manufacturing, operations, software, support, and service team are proudly based in the U.S. Build America, Buy America (BABA) Act compliant options available.
